

# JAEMIN SUNG

---

✉ jaeminsung@gmail.com ☎ 404-402-1572 📍 Fairfax, VA 🌐 [github.com/jaeminsung](https://github.com/jaeminsung)

## EDUCATION

---

Georgia Institute of Technology | Atlanta, GA | 08/2010 - 05/2015

B.S. in Computer Science & Biomedical Engineering (double major)

GPA: 3.69/4.00

## WORK EXPERIENCE

---

Software Engineer @ Capital One | McLean, VA | July 2015 - Present

Served three different roles through a 2-year rotational software engineering program:

- Developed a backend micro-service framework that aligned with Capital One's vision of leveraging cloud-agnostic open-source technologies
- Built a Continuous-Integration & Continuous-Deployment (CICD) pipeline to enable Capital One to migrate its on-premises applications to Amazon Web Services (AWS)
- Engineered a cutting-edge monitoring solution for an enterprise-wide streaming data platform to better track real-time transactions in credit card and other applications

Led the development of two proof-of-concept projects using machine learning:

- Stock market prediction: built a machine learning model using SVM to predict the long-term prices of individual stocks as well as ETFs with 70-80% accuracy
- Automated document data extraction: used open-source Optical Character Recognition (OCR) and ML libraries to extract data from financial documents

## RESEARCH EXPERIENCE

---

Comparative Neuromechanics Laboratory, Georgia Institute of Technology

Undergraduate Research Assistant (Advisor: Dr. Christopher Hovorka) | 04/2012 - 08/2013

- Authored MATLAB programs that perform signal processing analysis on electromyography (EMG) data from lower limb muscles to describe changes in motor output induced by a novel ankle-foot orthotic device
- Participated in human subject trials in an instrumented gait laboratory by collecting EMG and kinematics data through multiple hardware systems

## AWARDS & CERTIFICATIONS

---

AWS Certified Developer – Associate | 11/2016

AWS Certified Solutions Architect – Associate | 04/2016

President's Undergraduate Research Award | Spring 2013

## SKILLS

---

Java, Python, MATLAB, Scikit-Learn, AWS, AngularJS, ReactJS, Spring Framework, Apache Kafka, MongoDB, Apache Spark, Ansible, Terraform

## ACTIVITIES

---

Volunteer @ Capital One Coders | Annandale, VA | 09/2016 – 05/2017

Taught local middle school students how to make an Android mobile app using MIT App Inventor 2

Tech Consultant @ Rise | Washington, D.C. | 05/2016 – 04/2017

Led statistic research and web development for Rise, a national civil rights nonprofit working with multiple state legislatures and the U.S. Congress to implement legal measures to protect sexual assault survivors
